## **Broadband Infrastructure Company ByVerTek Appoints New Human Resources Leader to Support Growth and Diversity**

OCTOBER 2, 2023 — BOCA RATON, Fla. — Broadband construction and engineering services company ByVerTek today announced the appointment of Dara McGrath to Human Resources Director to support its aggressive growth goals as well as increase Diversity, Equity and Inclusion across the organization.

“Whether it’s for employees or our contract partners, I will be working to make the process of working with ByVerTek easier and more streamlined as well as more transparent and inclusive,” said Ms. McGrath. “I’ve been charged with making ByVerTek not just one of the largest diverse suppliers in the sector but also fostering an environment where all associates feel welcome and empowered to do their best work. I’m thrilled to take on that challenge.”

Founded in 2014, ByVerTek provides project management and skilled technicians to build, upgrade and maintain the physical infrastructure that delivers high-speed internet, video, voice and wireless, and IoT services across the United States. In June 2023 the company obtained an investment from Diversity Capital Company, LLC through its affiliate, Diversity Capital Fund I L.P. This investment will help ByVerTek better meet the federal government’s commitment to expanding the digital highway, and also qualify it as one of the largest, MBE-certified diverse suppliers in the sector.

“While ByVerTek’s ownership structure qualifies us as certified Minority Business Enterprise, we knew there is always more that a company can do to embrace diversity,” said ByVerTek Founder and CEO Andrew J. Healey. “Hiring a leader like Ms. McGrath to head our HR will enable us to innovate policies and processes to remain on the cutting edge of DE&I and employee engagement efforts.”

With over 20 years of experience working across all facets of Human Resources in high-growth companies in the technology and healthcare sectors, Ms. McGrath previously served as an HR Business Partner at TransUnion. She holds a Senior Professional in Human Resources (SPHR) certification from the Human Resources Certification Institute and is a Society for Human Resources Management Senior Certified Professional (SHRM – SCP).

### **About ByVerTek Enterprises, LLC**

ByVerTek Enterprises, LLC and its subsidiaries, ByVerTek, LLC and IoT ByVerTek, LLC support large MSOs and telcos, overbuilders, municipal power companies and other clients who build, upgrade and maintain the physical infrastructure that delivers high-speed internet, video, voice and wireless services. The company manages and performs projects related to the aerial underground construction and engineering functions that carry these services, from residential and commercial builds to state-wide fiber network expansions.
